# CORVUS TERRAIN EX4

LOOKING BEYOND

[CORVUS-UTV.COM](http://CORVUS-UTV.COM)

CORVUS OFF-ROAD VEHICLES® is part of a registered trademark owned by CORVUS. We reserve all commercial rights and/or the right to exploit the brand. As CORVUS is constantly seeking new ways to improve the specifications, design and quality of its utility vehicles, ongoing modifications may take place. That is why the information in this catalogue may have changed since the time of printing. CORVUS reserves the right to modify models, colours, and/or technical specifications without notice and without incurring any obligation. Drivers of CORVUS vehicles must comply with all requirements demanded by current legislation in relation to driving licenses and security measures required for the proper use of such vehicles. Never perform acrobatics and avoid excessive speeds and abrupt turns. Never drive under the influence of alcohol or drugs.

# Electric 4x4 TERRAIN EX4

## 100% ELECTRIC EFFICIENCY EXPERT

CORVUS TERRAIN EX4 is an electric all-terrain utility vehicle (UTV) that is perfectly suited to the demands of any working day. With OFF ROAD capabilities, this UTV can travel up to 100 km on a single charge and offers the precise power to meet all your needs. An efficient and environmentally friendly choice for your work activities!

### THE POWER YOU NEED AT ANY GIVEN MOMENT

Enjoy your work in difficult terrain with the 13 kW electric motor, which provides the power to transport and tow large loads with ease. The TERRAIN EX4 features a dual power selector - RANGE / POWER - which allows you to electronically select the right driving mode for the most demanding jobs.

### BATTERY AND QUIET WORKDAY

The Terrain EX4's quiet operation makes for a thoroughly enjoyable drive during your working day. What's more, its 15 kWh lithium-ion battery is designed for fast and convenient charging using a standard charger connected directly to the mains.

### OBSTACLA-PROFF

CORVUS TERRAIN EX4 can access roads that others cannot, due to its dimensions, it can overcome obstacles safely and master any terrain thanks to its 4x4 or 4x2 traction with rear differential lock and its ground clearance of 309 mm.
